Dear Dr. Ofogh,

On behalf of Southwestern Virginia Mental Health Institute, we extend our thanks and appreciation for the tele-psychiatry services you and your company provided for the Institute. You were able to provide a quality service with a short lead time which allowed our patients to receive the care they needed with little disruption.

At this time, we no longer have need of a tele-psychiatry program and will change our service request to a p.r.n. basis rather than two half-day standing meetings. This change in service should begin July 1, 2009.

We appreciate your flexibility and your willingness to work with us as we transition to full-time employed physicians.

Sincerely,

A handwritten signature in cursive script, appearing to read "James Grubbs".

James Grubbs, M.D.
Medical Director
